Dear Mr. Hoover:

Although I am not a great admirer of David Frost, I watched his show on Tuesday evening because the Attorney General was on.

I was very impressed with the fine job that the Attorney General did, particularly the manner in which he stood behind you in questions put to him by David Frost. I sent him a note telling him how I felt about it. A copy of it is enclosed.

Mr. Hoover, I know how concerned you must be about this campaign of villification that is levelled against you and against us. We are all very much concerned but we cannot let ourselves become discouraged. When we have a strong, dedicated person such as you at the helm, who has so successfully taken us through many storms in the past, I am sure we will weather this one.

With kind personal regards,

Sincerely,

Dear General Mitchell:

I watched your appearance on the David Frost Show Tuesday night and just wanted to drop this note to tell you what an admirable job I thought you did.

You were very articulate, positive and forthright in answering the questions put to you, some of which were real curves.

I also want to express my appreciation for the fine backing you are giving the Director and the FBI in these trying times. You know how we all feel about the Director and the great job he has done and is doing for the Bureau. It is very disheartening to see so much undeserved sniping against a man who is so dedicated and has given his all for what he believes in.

So, believe me when I say that all of us in the FBI are very grateful to you for not being afraid to stand up and be counted.

With kind personal regards,

Sincerely,

Honorable John F. Mitchell

PERSONAL ATTENTION

Mr. John F. Malone
Federal Bureau of Investigation
New York, New York

Dear Mr. Malone:

After reviewing the results of the recent inspection of the New York Office, I have approved the following ratings for your operations: Physical Condition and Maintenance, Investigative Operations, Administrative Operations, Personnel Matters and Applicant Recruitment Matters - Very Good; Contacts - Excellent.

Your office space, including that in the Resident Agencies, was found to be well maintained and secure. Security of space, particularly in the Resident Agencies, is of paramount importance and must receive your continuing critical personal evaluation. Be sure that recent Bureau instructions concerning security are carefully followed.

There are still five Resident Agencies without suitable storage garage facilities and your efforts to locate such space should be intensified. No safety defects were found in the automobiles inspected; however, your automotive operating and repair costs are above the field averages. Step up your efforts to reduce these costs. The reduction in the number of automobile accidents is encouraging; however, there are too many instances wherein employees have been found responsible. Put more emphasis on defensive driving. In view of space needs, the ten impounded vehicles presently stored in the headquarters city garage should be promptly turned over to the U. S. Marshal as soon as suitable arrangements can be made.

While no major racial violence has occurred in recent months, the great potential for it in your territory, particularly in the public high

schools remains extremely serious. I expect the New York Office to be able to obtain advance notice of all impending racial strife. To this end, you must take the necessary steps to bring about an improvement in your Racial Informant Program.

Your record of statistical accomplishments for Fiscal Year 1970 showed a deficit in convictions; however, for the first eight months of the current fiscal year you are up in all four categories. I shall expect your office to be in this favorable position at the end of the fiscal year.

While your solution rate in bank robberies has improved, your success in solving bank burglaries and bank larcenies has decreased, giving you an overall solution rate only slightly higher than at the time of the last inspection. The unsolved violations must receive intensified investigation and the specific suggestions made by the Inspector to further improve your solution rate are to be implemented without delay.

Your Criminal Intelligence and Interstate Gambling Activities Programs have achieved noteworthy results. Continue to press these matters vigorously. The Inspector's finding that top-echelon informants have improved in both number and quality is a further step in the right direction. Your Criminal Informant and Security Informant Programs were rated very good.

(U) [Of compelling urgency is the need for more effective counter-action against Soviet and Soviet satellite espionage operations in the United States.] I am convinced there are shortcomings in our coverage (S) which must be corrected as soon as possible.

(U) Insure the Inspector's instructions with regard to development of sources in the [Chinese] communist field are aggressively implemented (S) All violence-oriented New Left groups must be penetrated by high-level member informants. Accomplishment of these goals will be a real test of your leadership as Assistant Director in Charge of the New York Office.

The Chief Clerk's Office was found to be operating effectively. Your project work, however, has more than doubled since the last inspection, stemming largely from a change in rules governing file destruction. The Inspector's suggestions for realignment of rotor clerks to assist in the handling of this work should be carefully considered along with the

~~CONFIDENTIAL~~
Mr. John F. Malone

possibility of enlisting Agent assistance until the accumulated backlog is removed.

Corrective action must be promptly taken with regard to the undesirable administrative trends found by the Inspector. Of particular concern is the matter of review of indices references by case Agents. Procedures outlined by the Inspector to insure that this fundamental step is taken and recorded are to be strictly followed.

With regard to your request for fifteen additional Agents, five for applicant recruiting and ten for major jewel theft cases and major stock security cases, I have removed your office from the clerical quota for the Seat of Government effective immediately, thus releasing five Agents. I have approved the assignment of seven additional Agents for use on major jewel thefts and thefts of stock certificates, increasing your approved complement to 1066 Special Agents. Although your recruiting quota has been removed, I expect full participation by your office in supplying June graduates for Seat of Government vacancies.

The substantive errors detected during the inspection highlight a need for more care on the part of investigative and supervisory personnel.

to know of the high regard in which the FBI is held by leading citizens in your territory.

You and the Special Agents in Charge must carefully review the inspection findings and within thirty days of receipt of this letter advise the Bureau of corrective action taken in response to the Inspector's instructions.

Sincerely yours,

John Edgar Hoover
Director

MEMORANDUM FOR MR. TOLSON
MR. SULLIVAN
MR. BISHOP
MR. CASPER

I called the New York Office and in the absence of Assistant Director Malone, spoke to Special Agent in Charge Joseph H. Gamble. I told Mr. Gamble I would like him to get word to Mr. Malone, who, I understand, is in Rochester attending a Chiefs of Police meeting, upon his return that the Governor of New York has been in to see me about an investigation he is going to conduct about operations of New York City. I said this is going to be objective and penetrative without any involvement of politics, and it is to be headed by Stuart Scott, a man who was head of the New York State Bar Association and has a high reputation and is not a politician of either party and he is going to get a staff together of capable men to do the job. I told Mr. Gamble I had assured the Governor that he will have our fullest cooperation and I would like to have Mr. Malone meet Mr. Scott at Scott's convenience when he gets into New York and offer him any aid and assistance that we can give consistent with our responsibilities. Mr. Gamble said he would take care of this.

Very truly yours,

Dear Mr. Hoover:

This is just a note to tell you that last evening I had the opportunity of attending the CYO Club of Champions Dinner. You will recall that in 1945 you received the Gold Medal Award at this same dinner.

The recipient of the CYO Club of Champions Gold Medal Award this year was Mrs. Vincent Astor. I had an opportunity to talk with her and she wanted to be remembered to you. She stated that she always has and always will hold you in the highest esteem. Sitting at the head table was [redacted] nee [redacted]. In talking with her, she told me of her friendship with you and Mr. Tolson. She wanted to be remembered to both of you. As you know, she was married about a year ago and is now living on a country estate in New Jersey.

I have been in frequent contact with [redacted] office. His secretary advised that he is getting along quite well but that he still cannot have visitors. I thought you would want to know this.

As Assistant Director in Charge he performed in such an exemplary manner during the period from April 1, 1971, through March 31, 1972, as to definitely merit this Outstanding rating.

He is a most impressive representative of the FBI by virtue of the fact that he possesses a very effective personality and is always properly attired in conservative, businesslike dress. He instills a feeling of confidence in all with whom he comes in contact and his proven competence has earned the respect of one and all.

Dear Mr. Hoover:

The arrest on March 13 by the Federal Bureau of Investigation of an extortionist who has been harassing Pan Am and its personnel was the result of painstaking and dedicated work by a number of FBI agents.

The entire investigation was characterized by the dedication, hard work and long, tedious hours by Special Agents [redacted] and [redacted] under the direction of John F. Malone, Assistant Director in charge of the New York office.

During the course of the investigation, I became personally acquainted with several of these agents and am indebted to each of them. I am deeply impressed with their personal qualities, and as a citizen, it is encouraging to have these young men in government service.

Please accept my personal gratitude and that of all Pan Am employees.

Sincerely yours,

N. E. Halaby

There is attached an Outstanding Annual Performance Rating on Mr. Malone covering his services from 4/1/71 to 3/31/72. I have signed this rating as the Rating Official. If you approve, it will be necessary for you to sign the rating as the Reviewing Official. Thereafter, the Director should sign as the Approving Official.

A review of Mr. Malone's performance during the rating period reflects that he has been particularly outstanding in his supervision of Crime Aboard Aircraft (Hijacking) cases as is evidenced by his having been afforded four incentive awards for his supervision and participation in these matters. He was censured once in an Bureau automobile accident case.

In applicant recruitment the New York Office recruited in excess of its clerical applicant quota, also recruiting 18 agents, there having been no quota.

The New York Office is presently under inspection in connection with which Inspector Rampton has tentatively evaluated the results as Very Good in Physical Condition and Maintenance, Investigative Operations, and Administrative Operations, Personnel Matters, and Excellent in Contacts. Inspector commented there have been no substantive errors for which Mr. Malone is culpable and nothing unfavorable has been developed to date as to him. b6

Mr. Malone has expended aggressive efforts in keeping the Director fully informed concerning former SA [redacted] author of a proposed book due in May, 1972, entitled "Don't Embarrass the Bureau," and concerning another former Special Agent, [redacted] who is lending support to [redacted]

Memorandum Mohr to Tolson

RE: John F. Malone
Outstanding Annual Performance Rating

With respect to \$30,713 shortage in the \$161, 532.20 recovered after a bank robbery, it is noted the shortage undoubtedly occurred while the money was in the custody of the U. S. Attorney's Office in New York. Polygraph tests of our agents involved indicated no knowledge of the missing money. The Department has been advised of the need to subject personnel of the U. S. Attorney's Office (rejected by the U. S. Attorney) to polygraph tests. Reply from the Department has not yet been received.

The New York Office has shown increases in all categories of statistical accomplishments except Fines, Savings, and Recoveries for the first eight months of fiscal year 1972.

If approved, Mr. Malone will then be entitled to receive the original of his Outstanding Annual Performance Rating and, as has been the practice in the past, an award of \$500 since he is in Grade GS-18.

RECOMMENDATION:

That you as Reviewing Official sign the Outstanding Annual Performance Rating on Mr. Malone and that the Director sign it as Approving Official, after which he will be entitled to the original of the rating and an award of \$500.

Dear Mr. Hoover:

In regard to the \$30,000 missing from the vault of the United States Attorney for the Eastern District of New York, I thought you would be interested in the background of a former Assistant United States Attorney of the Eastern District of New York, who is considered as a suspect in this investigation. His name is [redacted] He was an Assistant District Attorney in Queens County before becoming a member of the staff of the Eastern District of New York. After resigning from the Eastern District, he returned to the Queens County District Attorney's office, where he is now [redacted]

The New York Office first started to check on [redacted] in November of 1970, when informant information was received that an unknown subject, also known as [redacted] an employee of the Eastern District of New York, was going to sell Federal Grand Jury minutes in the Morgan Guaranty Trust case for \$10,000.00. It was immediately determined that there were three employees of the Eastern District who had the first name of [redacted] including [redacted]

b6

[redacted] An investigation concerning [redacted] background, activities and associates was immediately instituted.

REC-145

236142-1112

Although it was subsequently determined that [redacted] was not identical to the unknown subject, aka [redacted] a considerable amount of derogatory information was developed causing the Department of Justice to request his resignation from the United States Attorney's office in June, 1971.

The derogatory information indicated that [redacted] finances, female and male associates and gambling activities were all questionable. In regard to [redacted] finances, it was determined that although he had difficulty maintaining a normal checking account and frequently writes insufficient fund checks, his standard of living was determined to be consistently high. [redacted]

In Early 1970, [redacted]

In regard to his female associates, it was learned that although married with two children, [redacted] is known by fellow employees as a "ladies' man". He has associated, for apparently a long time with [redacted] who he openly brought to social gatherings with fellow employees of the United States Attorney's office. [redacted] husband was on one occasion arrested [redacted] and taken to [redacted] assigned the case to an Assistant United States Attorney and had the matter presented to a Federal Grand Jury the same day and [redacted] was indicted. [redacted] subsequently claimed he did not know the individual was the husband of [redacted]

JOHN F. MALONE

It was also determined that [redacted] b6

[redacted]
[redacted] He warned her against going to the Cloud Room herself because of it being a hoodlum hangout.

In regard to his gambling activities, [redacted] has been described as a heavy better. In addition to being a heavy better, he has been known to associate with questionable characters having hoodlum backing. b6

When [redacted] was interviewed by New York Agents in July of 1971 in regard to the \$10,000 bribery allegation, he denied any criminal activities. However, he did admit to "indiscretions" in his personal life and poor judgment in the handling of his financial affairs. b6

He was interviewed again by New York Agents in the early part of February 1972 in regard to the missing \$30,000. At this time, he stated he had been in the vault in the United States Attorney's Office where the money was kept on only two occasions and each time he was accompanied by other United States Attorneys. However, he is still considered as a logical, but not the sole suspect, in the continuing investigation.

I am personally following this investigation in the New York Office and will be keeping you advised of any important developments.

PERSONAL ATTENTION

Mr. John F. Malone
Federal Bureau of Investigation
New York, New York

Dear Mr. Malone:

After reviewing the results of the recent inspection of the New York Office, I have approved the following ratings for your operations: Physical Condition and Maintenance, Investigative Operations, Administrative Operations, and Personnel Matters - Very Good; Contacts - Excellent.

Your space, both in headquarters city and in the Resident Agencies, was found to be well maintained. Insure that every necessary step is taken to safeguard Bureau equipment, property and sensitive material.

While your automobile operating and repair costs remain above the averages, there has been a favorable downward trend during the last half of 1971. Give prompt attention to the Inspector's instructions to schedule maintenance of the automobiles to increase daily use and to improve security at the contract garage. I am concerned about the number of automobile accidents and insist you must reemphasize the need for utmost safety in the operation of Bureau vehicles.

Your favorable record in statistical accomplishments for Fiscal Year 1971 and during the first nine months of the current fiscal year is marred by the current deficit in fines, savings and recoveries. I shall expect your office to have a favorable record in all categories at the end of this fiscal year. I am encouraged by the substantial increase in Bank Robbery Statute convictions, but the downward trend in your solution rate must be reversed by intensified investigation and implementation of the suggestions made by the Inspector.

Mr. John F. Malone

Your Criminal Intelligence and Interstate Gambling Activities Programs were rated excellent. The arrests in the Organized Crime Intensification Program, along with the increased number and improved quality of your top-echelon informants, are an indication of positive administration and investigative effort. Continue this momentum.

The Criminal Informant, Security Informant, New Left Informant and Extremist Informant Programs were rated very good. You should concentrate on improving the quality and selection of informants and be particularly alert to obtain advance information regarding possible attempts to disrupt the 1972 national political conventions. Intensify those investigations involving the Weatherman fugitives and make certain your office is well informed about the plans and activities of extremist organizations such as the Jewish Defense League and potential terrorists sympathetic to Cuba, Puerto Rican independence and the Middle East. Closely coordinate information which tends to indicate evidence of urban guerrilla activity and intensify investigations of the black extremist groups which are active in the vast ghetto areas of New York City.

b1

(S)

 Insure the Inspector's instructions are followed in this regard and in the use of automatic data processing to achieve optimum results in espionage and intelligence investigations. (S)

The substantive errors and undesirable trends called to your attention indicate the need for tighter supervision and for strict adherence to Bureau regulations by all personnel. Those matters requiring corrective action should be handled at once.

The Chief Clerk's Office is functioning effectively with a favorable reduction in the backlog of project work since the last inspection; however, I expect further steps to reduce this backlog. Carefully consider the Inspector's suggestion for realignment of personnel to achieve this goal. Although the production of your stenographers remains below the average, I am encouraged by the results obtained by the partial decentralization of the stenographic pool and you should move swiftly to complete the decentralization.

~~SECRET~~

~~SECRET~~

Mr. John F. Malone

(U) A complement of 1066 Agents and 555 clerks is considered adequate but not excessive to handle your present work load. With the removal of your applicant recruitment quota, I expect you to concentrate on filling the clerical vacancies existing in your office and to fully participate in obtaining the best qualified applicants for Seat of Government vacancies. Realignment of Agents as recommended by the Inspector should help you to meet the growing manpower requirements of Soviet and Chinese investigations as well as the increasing Administrative Index case load. (S)

Your speech, liaison, police training and National Academy programs are highly effective and I am impressed with the esteem in which the FBI is held by the leading citizens in your territory. Continue to give your personal supervision to these important matters.

You and the Special Agents in Charge must carefully review the inspection findings and within thirty days of receipt of this letter advise the Bureau of corrective action taken in response to the Inspector's instructions.

Sincerely yours,

John Edgar Hoover
Director

total violations (347 from 448) - specific instructions issued to improve solution rate. Criminal Intelligence and Interstate Gambling Activities Programs rated excellent. 160 arrests in Organized Crime Intensification Program - should meet quota of 200. 753 of estimated 1400 La Cosa Nostra members identified. 72 top-echelon informants furnishing positive intelligence information (60 last inspection); 374 targets - up 181 since last inspection. Positive penetration of organized crime with 58 convictions and 334 pending prosecution. Criminal Informant Program rated very good. Criminal informants up 8.1% to 399 and potential criminal informants down 3.8% to 589 - suggested increased emphasis on improving quality and selection. Security Informant and New Left Informant Programs rated very good. 754 of approximately 940 Communist Party (CP) members identified - Inspector emphasized further efforts to increase coverage of CP clubs and front organizations to identify remainder. Intensified investigation of Weatherman fugitives and other New Left matters ordered / [redacted] b1

- (S) [redacted] / intensified investigation of potential terrorists and top-echelon (S)
- (U) penetration of Jewish Defense League emphasized. Inspector suggested improved use of automatic data processing in espionage and intelligence matters - informant coverage in these areas rated excellent. Black extremist groups remain volatile - New York City is center of urban guerrilla warfare activity. Close coordination of investigations and infiltration of support elements ordered. Extremist informants rated very good - increased use of ghetto informants stressed. Missed applicant and civil rights deadlines above averages, missed fugitive deadlines below. Closer attention emphasized.

Administrative Operations - Very Good (Last Inspection - Very Good). Work load distribution among 56 desks (including ADIC, 5 SACs and 3 night supervisors) equitable. Chief Clerk's Office effective. Project work reduced to 2,580 man days (over 5,000 last inspection) by file destruction program - above field average, but suggested realignment of personnel will further reduce backlog. Pending work, misfiled index cards and form errors slightly above averages. Stenographic production below average; however, partial decentralization of pool on trial basis brought substantial improvement (+30%) - instructed to speed up complete decentralization. Retypes below average - no delinquency. Administrative trends detected and ordered corrected: failure of legal instructors to review complaints and affidavits; delayed submission of informant justification and progress letters; improper filing of memoranda closing security informant files; improper notations in security informant files; delayed reviews of Selective Service files; and unnecessary delays in recording receipt of bulky exhibits. Necessary overtime equitably shared and productive.

Personnel Matters - Very Good (Last Inspection - Very Good). Complement 1621 (1066 Agents, 555 clerks - including 17 clerical vacancies); adequate, not excessive - ADIC agrees. One Agent determined overweight during inspection (handled separately). No Agents unavailable, 2 Agents and 1 clerk on probation - 1 Agent recommended for removal. 11 Agents on limited duty - productive and retention justified. Morale appears very good.

The Director of the Federal Bureau of Investigation takes pride and pleasure in commending

Assistant Director John F. Malone

of the New York Office of the Federal Bureau of Investigation for services as set forth in the following CITATION:

"On August 22, 1972, two armed robbers seized nine hostages in the Chase Manhattan Bank in Brooklyn, New York. Thereafter, during the early morning hours of August 23, 1972, they left the bank with a number of hostages and a considerable amount of cash, having demanded a limousine to transport them to the airport where an airplane was to be made available to them. Subsequently, at the airport one of these dangerous individuals was shot and killed and the other disarmed and apprehended.

The successful outcome of this matter, which attracted national interest, can be attributed to the superlative on-the-scene supervision provided by Mr. Malone who directed all facets in this fast-moving and highly volatile situation. His admirable performance reflects most creditably on him and on the FBI and has earned for him a \$300.00 incentive award."

Dear Mr. Gray:

It was with a deep sense of personal pride that I had the privilege to participate in a small way with John Malone, Richard Baker and Fred Fehl in one of the most incredibly brilliant performances of professional expertise and generalship during the recent bank robbery and hostage situation in Brooklyn involving a branch of the Chase Manhattan Bank.

I simply cannot find words to describe the sheer courage, skill and coolness displayed by these three leaders and the Agents assigned to the New York Office. I am sure that you have a full report, especially with respect to the courage displayed by the driver of the limousine carrying the hostages and perpetrators to the airport. It is my personal hope that some of our fellow citizens will, through these events, come to realize the value of such professional law enforcement activities, and reject the unspeakable clamor of too many people who should know better.

Please accept my congratulations to you and your entire organization.

Dear Mr. Gray,

I wanted you to know that we all appreciate your interest in making possible the recent visit of Inspector Donald E. Moore and Section Chief William A. Branigan to this office.

They held a series of conferences with the SAC and supervisors of the Espionage Division of this office, during which they explained your policies and deep personal interest in the security and foreign intelligence field. They also conferred at length with several agents handling some of our most sensitive operations.

The personnel of this office were extremely impressed with the enthusiasm, sympathy, knowledge and desire for accomplishment displayed by these conscientious Bureau supervisors. The spirit they engendered is spreading rapidly among all the agents handling this work, and the boost in morale will certainly pay worthwhile dividends. Such close liaison and personal interest in the problems of the field is very impressive.

Sincerely,

John F. Malone

Dear Mr. Gray:

Assistant Director William V. Cleveland, Jack Keith, Jr., Section Chief, Criminal Intelligence and Organized Crime Section, and his Number 1 Man, John E. Kelly, Jr. have concluded their two-day conference, held on December 5 and 6, 1972, with SAC Robert Russ Franck, personnel of our Organized Crime Division and myself. The conference saw a vigorous exchange of information and an enlightening discussion of possible new approaches in the organized crime field that I believe was highly productive for all concerned.

There is no substitute for this free exchange of information between headquarters officials and agent personnel assigned to investigate these important cases.

I heartily endorse the continuance of these periodic conferences, which the agents and I have found so rewarding.

February 1,

Honorable L. Patrick Gray, III,
Acting Director,
Federal Bureau of Investigation,
Washington, D.C.

Dear Mr. Gray:

Assistant Director William V. Cleveland and Bureau Supervisors [redacted] and [redacted] have concluded their two-day conference, held in New York on January 30 and 31, 1973, with representatives of eight Northeastern Bureau Field Offices, SAC Robert Russ Franck, personnel of our New York Organized Crime Division and myself. The conference produced a valuable analysis of organized criminal activity in the Northeastern Section of the United States and developed several new coordinated approaches that might be used in attacking this menace in the future. The entire two-day meeting was marked by a vigorous exchange of ideas and information that I believe was unusually worthwhile for all concerned.

These regional conferences are a valuable addition to our planning and attack on organized crime. I enthusiastically recommend that headquarters officials periodically hold similar conferences in other sections of the country and from time to time return to New York, where our agents have found these meetings to be particularly rewarding.

Sincerely,

John F. Malone

It was with a great deal of pride and humility that I received your letter of April 17, 1973 advising that I had been granted an Outstanding performance rating. Pride, in learning that my efforts were deemed worthy of such recognition, and humility in the realization that this could not have been accomplished without the cooperation and support of all of my associates here in the New York Office.

Washington, D. C. 20535

Dear Mr. Ruckelshaus:

Our Associations, which now have more than five million members, have become heavily involved in crime prevention programs as a service to our members. In this connection, we had a Crime Prevention Workshop at our Area Conference in New York City during the first week in May 1973.

During this conference we were privileged to have the Assistant Director, Mr. John F. Malone, make a brief presentation. As expected, Mr. Malone represented the Federal Bureau of Investigation in a truly professional manner. We would like to express our appreciation for his contribution to our program.

We would also like to express our appreciation for the fine contribution made by [redacted] of your New York office.

In the many years that we have had association with the agencies of the Federal Bureau of Investigation, we have not once had an experience that was anything less than outstanding.

Sincerely,

[redacted signature]

Dear Mr. Ruckelshaus:

On behalf of the five Special Agents in Charge, as well as the entire staff of the New York Office, I would like to take this opportunity of expressing to you our complete loyalty and support as Acting Director of the FBI.

Your sincerity, frankness and invitation to dialogue were very much appreciated by all of us in attendance at your conference in Washington yesterday.

As a result of this meeting with you yesterday, as well as the meeting with Acting Associate Director Mark Felt, we all left, I am sure, with only one thing in mind - unity in our support of you and unity in our sincere desire to get along with the job at hand as expeditiously and efficiently as possible. I want to assure you that there was no evidence of divisiveness, factionalism or dissension in arriving at this, our common goal.

If you have occasion to be in New York at any time, we would be pleased if you could work a visit to the New York Office into your schedule.

With best wishes for continued success.

Sincerely,

John F. Malone

Mr. John F. Malone
Federal Bureau of Investigation
New York, New York

Dear Mr. Malone:

The results of the recent inspection of the New York Office have been reviewed and I have approved the following ratings for the various operations: Personnel Matters and Contacts - Excellent; Physical Condition and Maintenance, Investigative Operations, and Administrative Operations - Very Good.

Although your present space in Headquarters City is congested, it was observed to be maintained in a secure, orderly and businesslike manner as was the space in your Resident Agencies. Continue to emphasize strict compliance with Bureau requirements pertaining to the security of our space, sensitive material and equipment throughout your Division.

I was pleased to note that no safety defects were detected in your automotive fleet. As you are aware, the Inspector's analysis as to the adequacy of your fleet revealed your office can effectively operate with ten fewer cars and, therefore, these vehicles are being reassigned to offices having a greater need. Your automotive repair costs are above the field average, although I note operating costs have been reduced during the past year and are now comparable to the field average. Continue to stress economy of operations. I was also pleased to learn of the substantial decrease in the number of automobile accidents since the last inspection, as well as the decrease in the number of our personnel held responsible. Employee safety is a matter of continuing concern and safe and defensive driving should be constantly emphasized.

Mr. John F. Malone

I note that your office is currently up in two of the three categories of statistical accomplishments. However, with the present fiscal year drawing to a close, it is apparent that considerable improvement will be required if you are to exceed last year's achievements in fines, savings and recoveries. The accomplishments of your office should be followed closely by you to obtain the desired results.

I was pleased to see that your long-range solution rate in Bank Robbery Matters approximates the field average and you should promptly implement the Inspector's instructions to improve the solution rate of those violations occurring this fiscal year.

The Criminal Intelligence and Interstate Gambling Activities Programs were rated excellent. Continue to concentrate investigative activity on the more important cases having prosecutive potential and closely follow those matters awaiting prosecution to assure even greater accomplishments this fiscal year. You should also implement the Inspector's instructions to extend the coverage of organized crime activity in your territory. Your Criminal Informant Program was rated very good. Strive to improve the quality of all such sources and take the necessary steps to increase coverage where required in the Resident Agencies.

Your Security Informant and Extremist Informant Programs were rated very good. Continue to stress the improved quality of informants in these most important areas of our work and place additional emphasis upon obtaining member informant coverage where required. A distinct potential for violence exists within your territory because of the substantial number of active extremist organizations and your office must remain alert to insure that we are constantly in a position to fully discharge our responsibilities under these vital programs.]]

b1

(S)

(U)

As you are aware, there is a high concentration of official Soviet and satellite personnel in your

(U) territory, many of whom are known or suspected members of intelligence organizations.] We must be aggressive in developing suitable coverage of their activities. The fact that there have been decreases in the quality and quantity of informants in these areas since the last inspection is of concern to me and prompt improvement should be effected. (S)

Missed applicant and fugitive deadlines were below the field averages but additional attention should be afforded civil rights deadlines. The nature of the substantive errors and undesirable administrative trends detected by the Inspection Staff indicates a clear need for tighter supervision and closer adherence to Bureau rules and regulations. You must also insure that forms concerning travel data on extremists and other subversives are submitted to Headquarters on a timely basis and that the Inspector's instructions as to the proper handling of evidence and bulky exhibits are immediately implemented.

Your Chief Clerk's Office was found to be functional and while I noted project work has been substantially reduced since the last inspection, it continues to be above the field average as does pending work on hand. I also note that form errors and misfiled index cards were slightly above the field averages. These matters must receive close day-to-day attention to insure steady improvement. I was pleased to learn you had no stenographic delinquency and that although stenographic production continues to be below the field average, it was increased since the last inspection. Further improvement should be realized with the complete decentralization of the stenographic pool.

I have carefully considered your requests to maintain your total Special Agent complement at 1066 and your clerical complement at 563 but have concluded that such requests are not justified and I have approved a total Agent complement of 1019 and a clerical complement of 540 for your office. Existing clerical vacancies should be filled promptly and increased productivity on the part of all personnel should be stressed. You must also insure there is a proper allocation of Agents among the various Divisions to successfully meet investigative problems as they arise.

Your recruiting of qualified Agent and clerical applicants since the previous inspection is most favorable. Continue your aggressive

approach to clerical recruitment and stress the need for qualified applicants among all Americans.

I was pleased your contacts are providing valuable and diversified services. Continue to promote favorable relations with the news media and give your personal attention to the effectiveness of our public appearances as well as to the police training and National Academy programs.

You, the Special Agents in Charge and the Assistant Special Agents in Charge, should carefully review the results of the inspection and within thirty days of the receipt of this letter, advise the Bureau of the corrective action taken.

Sincerely yours,

William D. Ruckelshaus
Acting Director

made to increase maintenance repair efficiency. Operating costs reduced during past year and are now comparable with field average. Accidents down from previous inspection period, 64 to 44, as well as number of Agents held responsible, 9 to 6 (two accidents unresolved). Safety and economy of automotive fleet stressed through emphasis on defensive driving. Technical equipment properly maintained and utilized on authority of ADIC. No delinquencies detected in radio equipment, operation and maintenance.

Investigative Operations - Very Good (Last Inspection - Very Good). Case load 4/30/73 - 16,947 (15,642 active); down from last inspection - 18,842 (16,932 active); 12-month average of active pending cases 16,434. Drop due principally to consistent decline in Selective Service matters and reduction of persons included in the Administrative Index under new criteria. Case load and case closings per Agent substantially below offices of similar size; delinquency equal to or below offices of similar size 10 of past 12 months.

Statistical accomplishments for first 10 months of Fiscal Year (FY) 1973 - up in two of three categories (convictions and fugitives apprehended); down 26% in fines, savings and recoveries. Decline in latter due to unusually high savings (\$32 million) recorded in a single anti-trust case in prior FY. Office instructed to follow closely. Thirty-one substantive errors detected (handled separately). Errors involved instances of delayed, inadequate or incomplete investigation; failure to properly utilize NCIC; failure to forward handwriting specimens to FBI Laboratory; failure to execute Warning and Waiver of Rights Form, Interview Logs and FD-302s; improper reporting; failure to disseminate security information; failure to confirm in writing U. S. Attorney's opinion; failure to obtain SAC's authority for security interview and delinquencies in administrative and investigative handling of criminal and security sources. ADIC and SACs instructed to tighten supervision. Outstanding accomplishments of 3 Agents (one regarding the solution of 2 bank robberies; 2 involving the superior handling of security matters) and 5 clerical employees involving high-level technical competence in a security case were noted and called to ADIC's attention for suitable recognition (handled separately).

Extensive, self-initiated investigation conducted in Top Ten Fugitive cases due to security aspect of some fugitives' affiliations, which cases receive close supervisory attention. Office is not origin in any Top Ten matters. Missed applicant and fugitive deadlines below field averages. Although missed civil rights deadlines remain slightly above field average, percentage represents decrease from previous inspection period - further reduction stressed. 54% (81

of 150) of violations of Bank Robbery (BR) Statute solved thus far in FY 1973; this is slightly below field-wide average of 59%. Office's long-range solution rate is 63% compared to field-wide average of 65%. Past success in solving BR matters has contributed to sharp decrease of total number of violations (449 violations in FY 1971, 302 violations in FY 1972). Specific suggestions made to aid office in improving its current solution rate and to facilitate the administrative handling of cases.

Criminal Intelligence and Interstate Gambling Activities Programs rated excellent with 106 convictions thus far in FY 1973 including 20 for Extortionate Credit Transactions. Five La Cosa Nostra (LCN) "families" in territory represent hub of national organization. LCN continues to be the largest and most powerful organized crime group in New York area, controlling illegal gambling, loan-sharking and labor racketeering. 743 LCN members identified among the five families; office instructed to place additional emphasis on identifying non-LCN organized crime figures with view towards effecting prosecution for violations within Bureau's jurisdiction and to increase coverage in Staten Island RA territory. Effective use made of 43 court-approved Title III installations since last inspection. 84 quality top-echelon (TE) informants represent increase of one; 275 targets under development constitute decrease of 105 since last inspection (includes 31 cases closed by Inspector and 12 targets converted to criminal informants). Overall coverage has increased somewhat in scope and quality. Top-Echelon Informant Program rated excellent.

Criminal Informant (CI) Program rated very good. 413 CIs (up 14), 627 potential CIs (up 38) from last inspection. Overall numerical strength increased but quality and coverage in two RAs decreased from last inspection - improvement ordered. Accomplishments attributable to informants up in 4 of 8 categories thus far in FY.

Communist Party (CP) membership approximates last inspection; recruitment drive underway with emphasis on youthful candidates. Young Workers Liberation League, CP front group, active; additional informant penetration stressed. CP activities during 1972 elections prompted accent on more political effort and involvement. Security and Extremist Informant Programs rated very good. Extremist situation relatively calm but potential for violence present as indicated by substantial number of extremist organizations within territory. Office instructed to develop quality member informants in organizations where coverage minimal such as Black Panther Party - Newton faction, Black Liberation Army (BLA), Nation of Islam and National Knights of Ku Klux Klan. Informant

(U) [REDACTED] Satellite personnel in territory many of whom are known or suspected members of intelligence organizations. Sophisticated coverage effective but decrease in quality and quantity of informant coverage since last inspection detected and improvement ordered. (S)

(U) Aircraft Hijacking Plan current and well organized - constructive suggestions made to strengthen. NYO Contingency Plan for implementing FBI responsibility under Act for the Protection of Foreign Officials and Official Guests reviewed and suggestions made to further streamline. Bureau-approved field exercise underway to test plan and provide experience under simulated conditions. Administrative weakness detected regarding failure to submit forms and travel data related to extremists and other subversives (handled separately). Immediate corrective action ordered. Specific suggestions made to effect early apprehension of two Bureau fugitives; to assist in the identification of a possible Cuban intelligence agent; to locate a security subject; to aid in handling of a security informant; and to improve investigations in the security and organized crime fields. (S)

Administrative Operations - Very Good (Last Inspection - Very Good). New York 57-desk office, including ADIC, 5 SACs, 3 ASACs - justified. Effective utilization and proper allocation of Agents among various Divisions emphasized. Nine established RAs cover approximately 10,500 square miles with estimated population of almost 5 million. Considering economy of operations, statistical accomplishments, population and area covered, all RAs justified. Special Agent Accountants assigned New York adequate and are afforded assignments to upgrade individual accounting qualifications. Chief Clerk's Office functional but both pending work and project work are above field averages although project work reduced 1354 days from the 2,580 days existing at time of last inspection. Office encouraged to bring file and indices destruction as well as consolidation programs up to date. Form errors and misfiled index cards slightly above field

averages. Stenographic production increased since last inspection but continues below average. Completed decentralization of steno pool should further increase production. No stenographic delinquency reported. Bureau-approved odd-hour shifts justified. Confidential and Imprest Funds adequate for operations; no discrepancies detected.

Undesirable administrative trends detected and corrected involved failure to include correct number of statements on Security Informant Progress Justification Letters; improper handling of Stop Cards and improper administrative handling of criminal informant matters. Administrative weaknesses noted in the handling of evidence and bulky exhibits corrected (handled separately). Overtime productive, necessary and equitably shared.

Personnel Matters - Excellent (Last Inspection - Very Good). Total complement 4/13/73 - 1,531 (1,017 Agents, 514 clerks). At last inspection total Agent complement authorized at 1066; clerical complement set at 555. Since last inspection 11 new clerical positions authorized and 3 abolished for net increase of 8. Forty-nine clerical vacancies currently exist. ADIC requested Agent complement be authorized at 1066 and clerical complement set at 563. In-depth analysis by Inspector revealed NYO can operate effectively with 1019 Agents and 540 clerks (approved separately). Morale high. Four Agents on limited duty, two on probation - retention justified. No Agents overweight or unavailable.

Physical Fitness Program being implemented and encouraged. Supervisory personnel performing on-the-spot supervision to provide necessary training and leadership. Work-related injuries decreased sharply since last inspection (74 to 53). Office aware of need to reduce such injuries and safety encouraged. Health Unit well maintained and functioning in orderly manner for employee welfare. Commendations and Incentive Awards Programs utilized by supervisory staff when special recognition merited.

Since last inspection, 37 Agent applicants recruited - 8 appointments currently outstanding. 36 clerical applicants entered on duty at FBIHQ since last inspection (no clerical quota); also, 80 clerical applicants recruited to fill NYO needs. Office instructed to continue aggressive approach to clerical recruitment and suggestions made to improve recruiting efforts. Need for qualified applicants among all Americans emphasized.

Contacts - Excellent (Last Inspection - Excellent). 42 contacts (31 in Headquarters City and 11 in RA territories) furnishing valuable and diversified services. This

Dear Mr. Kelley:

May I take this opportunity to express my sincere best wishes and success as the new Director of the Bureau.

I received personal gratification upon learning of your appointment by the President of "one of our own." I retired from the Bureau in December, 1967 and started a new career as Vice President of Security with Paine, Webber. I am familiar with the problem of stolen securities in the Wall Street area and if at any time I may be of service to you or the Bureau I would be delighted to serve.

John Malone is personally acquainted with me and he has made an outstanding contribution to the Bureau as your representative in this area.

In behalf of my firm we wish you success in your new endeavor and again we would be delighted to assist when called upon.

Sincerely,

EMPLOYMENT AGREEMENT

As consideration for employment in the Federal Bureau of Investigation (FBI), United States Department of Justice, and as a condition for continued employment, I hereby declare that I intend to be governed by and I will comply with the following provisions:

(1) That I am hereby advised and I understand that Federal law such as Title 18, United States Code, Sections 793, 794, and 798; Order of the President of the United States (Executive Order 11652); and regulations issued by the Attorney General of the United States (28 Code of Federal Regulations, Sections 16.21 through 16.26) prohibit loss, misuse, or unauthorized disclosure or production of national security information, other classified information and other nonclassified information in the files of the FBI;

(2) I understand that unauthorized disclosure of information in the files of the FBI or information I may acquire as an employee of the FBI could result in impairment of national security, place human life in jeopardy, or result in the denial of due process to a person or persons who are subjects of an FBI investigation, or prevent the FBI from effectively discharging its responsibilities. I understand the need for this secrecy agreement; therefore, as consideration for employment I agree that I will never divulge, publish, or reveal either by word or conduct, or by other means disclose to any unauthorized recipient without official written authorization by the Director of the FBI or his delegate, any information from the investigatory files of the FBI or any information relating to material contained in the files, or disclose any information or produce any material acquired as a part of the performance of my official duties or because of my official status. The burden is on me to determine, prior to disclosure, whether information may be disclosed and in this regard I agree to request approval of the Director of the FBI in each such instance by presenting the full text of my proposed disclosure in writing to the Director of the FBI at least thirty (30) days prior to disclosure. I understand that this agreement is not intended to apply to information which has been placed in the public domain or to prevent me from writing or speaking about the FBI but it is intended to prevent disclosure of information where disclosure would be contrary to law, regulation or public policy. I agree the Director of the FBI is in a better position than I to make that determination;

(3) I agree that all information acquired by me in connection with my official duties with the FBI and all official material to which I have access remains the property of the United States of America, and I will surrender upon demand by the Director of the FBI or his delegate, or upon separation from the FBI, any material relating to such information or property in my possession;

(4) That I understand unauthorized disclosure may be a violation of Federal law and prosecuted as a criminal offense and in addition to this agreement may be enforced by means of an injunction or other civil remedy.

I accept the above provisions as conditions for my employment and continued employment in the FBI. I agree to comply with these provisions both during my employment in the FBI and following termination of such employment.

August 30, 1973

Dear Clarence:

Thank you very much for your letter of
August 28, 1973.

Mr. Gabriel Hauge, Chairman of the Board,
Manufacturers Hanover Trust Company, is a good friend
of the New York Office. I have met him on numerous
occasions and your evaluation of him is correct. He is
a real American and a staunch supporter of the FBI.

I felt perfectly free to call Mr. Hauge
to ask him about the group he would like you to meet with.
First let me say, he was most impressed by you and the
meeting he had with you. The group is made-up of high
powered businessmen that he invites informally, period-
ically, as his personal guests to his private dining
room at the bank. He feels it would be an excellent
opportunity for them to meet you and you to meet them.
They are the type of people that could be of considerable
assistance to the Bureau.

REC-137

Mr. Hauge stated that he plans this meeting
towards the end of October. He will contact your secre-
tary to workout a suitable date with you. It will be
at your convenience. I definitely recommend that you
accept this invitation, if at all possible. He invited
me to attend, but I told him that my acceptance would
depend on your feelings in this regard.

I also called Norbert Anscheutz. He sounds
like a very fine person. He values his friendship with
you very highly. We plan to meet each other personally
in the very near future.

I know that great demands are being made on
your time and it is next to impossible for you to keep up
with your commitments.

NOTED
SPEECH ROOM

JOHN F. MALONE

I would like you to know that Spencer Drayton, former SAC of the FBI, presently Head of the Thoroughbred Racing Detective Bureau and an SAC Contact of the Office, advised that on some occasion when you are in New York, he would like to get together a group of friends of the FBI for a luncheon or dinner at the Metropolitan Club. I think this would be a splendid idea if at some time in the future you could work it in with your program.

^{and} I saw Arthur Sulzberger, a few nights ago, and he was most apologetic because he could not furnish you the information we requested of him recently. Arthur is a very fine man, but unfortunately he is not running the "New York Times." He succeeded his father who died recently and some of the old-timers are giving Arthur bum advice on how the organization should be run. I do think it would be a good idea if you met with him and his staff again at your convenience.

The Bureau has substantially fine backers in New York, and you are receiving their wholehearted support. They like what they read, see and hear about you. I hope that you can work a visit to New York into your busy schedule.

Thank you very much for making it possible for me to attend the National Academy once again. Quinn Tamm and I have not been on such good terms for the past several years, largely as a result of a misunderstanding. However, I am pleased to say we made-up at your swearing in ceremony and once again we are both the best of friends. I always liked Quinn and felt very badly over the situation that developed.

With kind personal regards and best wishes for your continued success,

Sincerely,

John (Malone)

Thank you very much for your kind letter of August 30th. I am pleased that you have had an opportunity to contact some of the gentlemen we had spoken of previously.

As you are aware, I shall be in New York on October 15th to have dinner with Mr. Hauge and his group. Assistant Directors Franck and Miller will accompany ^{you and} me at the dinner.

When you next see Mr. Drayton, please tell him I will be glad to keep in mind his thoughtful invitation for lunch or dinner at the Metropolitan Club. SUBJECT: JOHN F. MALONE
ASSISTANT DIRECTOR IN CHARGE

ReNYlet to Bureau 10/9/73.

This is to advise that since referenced letter, I have been in touch with [redacted] of the New York State Department of Labor.

[redacted] pointed out to me that Internal Revenue Service sent him a notice indicating that I was an employer. I then advised him that this probably was referring to Social Security that I pay to the Federal Government for a man who works as a caretaker for a property I own in Pennsylvania. He stated that inasmuch as the property was located in Pennsylvania, there was no liability under New York State Unemployment Insurance law.

I asked him if I could have this statement in writing, and he sent a letter of October 12, 1973, a copy of which is enclosed for information of the Bureau.

Dear Clarence:

This is just a note to tell yo
that I thoroughly enjoyed the Philadelphia
Symposium.

I think this is an excellent idea
which proved to be very informative and enlightened
us in many phases of our responsibilities as
managers. I think it also had an opposite effect
in that it provided some excellent ideas from
the field side of management for guidance of the
Bureau.

I feel certain that upon the comple-
tion of the Symposiums throughout the Field, you
will have an excellent foundation upon which to
make any changes you feel will be necessary for
the forward movement of the Bureau.

I enjoyed seeing you. I thought
your press conference was excellent. That one
fellow annoyed me with all the silly questions
he asked, but I thought you grounded them very
well.

Dear Clarence:

Malone, John F.
Per your instructions, I was most pleased at the opportunity to attend the Bell Seminar as your representative. It was made-up of affluent people from Washington who are connected with the Government. The seminar was very well organized and quite well done. Of course, keeping in mind that it was only for one day, I would say it was more demonstrative than instructional.

It acquainted those in attendance with the capabilities of the Bell System. Although I must say, there was no evidence of any effort to sell Bell products. It was primarily designed to acquaint those in attendance with the capabilities of the Bell System in regard to the Management Information System.

REC-137
I came away with the definite idea that there is a vast communications potential that could be adapted to improve the efficiency of the FBI. There was a great deal of emphasis placed on planning before arriving at any conclusions on how a job should be done. For this reason, I would like to recommend that arrangements be made with Bell for Assistant Director James Adams to attend one of the Seminars. It would tend to give him a good insight as to the responsibilities and methods of accomplishing desired results for the Office of Planning and Evaluation. Also I think it might be well for Assistant Directors John Marshall and Wason Campbell to attend a future Seminar.

I spoke with the officials of AT and T in this regard and they said they would be most happy to arrange for representatives of the Bureau to attend future Seminars. This can be done by contacting [redacted] one of the Washington representatives of AT and T.

Another idea that I came away with was the fact that before we make any definite plans in regard to the move of the New York Office, we should explore the communications capabilities and possibilities with the Bell System. In fact, I believe that when we have definitely decided on the problems connected with the move and the resultant communications problems, and gathered all the data necessary in conjunction with the move and have laid out our plans on paper, we should have some professionals at the Bell System go over our plans. In this way, we will be assured that we are taking advantage of every capability in the field of electronic communications and data storage. The Seminar convinced me that if we do not do this, we could easily go off in the wrong direction and come up with something that would not solve our problems.

I am enclosing for your information a list of those who were in attendance.

I have written and thanked AT and T for having the FBI as their guest at the Seminar.

With kind personal regards,

Sincerely,

John F. Malone

Dear John:

Thank you for your letter of December 6th filling me in on the Bell Seminar you recently attended. Your ideas and suggestions are definitely appreciated and I assure you they will be given further consideration.

With reference to future seminars of this type put on by the Bell System, John Marshall and Wason Campbell would be logical choices to attend, as well as Jim Adams. However, I want Jim to settle into his new job before attempting to undertake any outside commitments, but I am sure he will be interested in attending a seminar at a later date.

Dear Clarence:

Thank you very much for including me among those selected to attend what in my opinion is a very profitable seminar at the Washington Hilton on February 5, 1974.

A free and open exchange of ideas, as occurred on this occasion, is a very healthy and beneficial approach to our problems.

I was extremely pleased with the new transfer policy. I am sure that this will be a tremendous boost to morale especially among the New York Agents.

With kind personal regards and appreciation,

Sincerely,

JFM

Dear Mr. Malone:

While there should be no need to bring the following to your attention, recent revelations in more than one office have indicated that possibly some "double standards" do exist as concerns field executives and Special Agent personnel.

You are reminded that rules and regulations pertaining to #3 cards, operation of FM two-way radios in Bureau cars (in and out of service transmissions), use of Bureau cars for official purposes only and not converted to employee's personal use, and maintenance of Auto Record forms (FD-73) are applicable to all SACs and ASACs, as are all Bureau regulations.

For your information I am also sending separate letters to the SACs assigned to your office.

Sincerely yours,

Pursuant to the Director's oral instructions on 5/30/74 and his memorandum to members of the Executive Conference, 6/4/74, arrangements have been made, subject to approval, to hold captioned conference at the Washington Hilton at 8:00 am, July 8, 1974. These arrangements are similar to those of the last conference and will permit a comfortable and secure conference with a meaningful agenda.

In addition to the Headquarters representatives who attended the last conference, the following were also invited: ✓ John F. Malone, ✓ William A. Sullivan, ✓ Clark D. Anderson, ✓ Charles W. Bates, ✓ Richard G. Held, ✓ John J. McDermott, ✓ Roy K. Moore, and ✓ J. Gordon Shanklin.

It is proposed that those to be invited to attend the July 8, 1974, conference, in addition to Headquarters representatives and Assistant Directors Maloné and Sullivan, consist of the following:
✓ SAC Robert G. Kunkel, Alexandria; ✓ SAC Vern F. Loetterle, Las Vegas; ✓ SAC Rex I. Shroder, San Diego; ✓ SAC James E. Milnes, Seattle; ✓ SAC Richard H. Ash, Buffalo; ✓ SAC Donald W. Moore, Washington Field (on transfer). This represents a change in those invited to the last conference; however, it is felt that on balance the proposed invitees will bring to the conference new views based on varying area and experience factors. Inquiry today of Movement and Leave Desks did not disclose any information which would conflict with their being able to attend the conference.

The following is suggested as a formal agenda and assignments:

- 1 - Mr. Callahan

Dear Clarence:

Yesterday I had the privilege of introducing Assistant Director John Malone to a large gathering of security officers, former Agents, and corporate heads at the annual seminar scheduled by the Westchester County Association in Tarrytown, New York. My purpose for being there was simply in the category of being a member of the board of directors of the Westchester County Association.

John spoke to approximately 200 of the above-named individuals and did an outstanding job. I am certain that the Bureau gained in reputation and prestige as a result of John's appearance.

It gives me a very warm feeling indeed to participate in such matters and to see the constant respect enjoyed by the FBI as a result of appearances such as the one made by John on this occasion.

I also wanted to take this opportunity to congratulate you and the Bureau on your recent successes in kidnapping cases. I am certain that the one in San Francisco will be handled in the same manner as the successful conclusion you have shown in recent cases.

With best wishes and kind regards,

Dear Clarence:

This is just a note to let you know of my personal appreciation for being invited to Monday's conference at the Washington Hilton. I thought the conference was well worthwhile and the exchange of ideas certainly should have been most beneficial to everyone present. This is not my opinion alone, but that of other Bureau representatives at the conference, particularly those from the field.

I know that these conferences are a great demand on your time, but I am of the strong opinion that we should have them as often as possible. I was extremely impressed with your position on many of the items discussed and I have taken the liberty of calling a conference of all Agents in the New York Office this Friday to give them the benefit of the highlights of the conference. I have already had a conference with the SACS and ASACS and they also were of the opinion that at least the highlights of the conference should be passed on to the Agent personnel. If a copy of your remarks to the press covering your stewardship for one year has arrived by that time, I plan to read this at the conference.

I hope that your second year and following years will be just as successful as your first and even more so.

With warm personal regards,

Sincerely,

On 5/23/74, I was having dinner as a guest of JOHN FLEMING, Vice President of Sunshine Snacks, a subsidiary of American Brands at 245 Park Avenue, NYC. This building is immediately adjacent to the Pan Am Building in New York.

At approximately 1:15 p.m., I received a telephone call from the office advising me that a helicopter had been hijacked from lower Manhattan and was going to land at the abandoned heliport at the top of the Pan Am Building.

I immediately went to the Pan Am Building, took the elevator to the 57th floor which was as high as the elevators go, and then ran up two long flights of stairs to the heliport.

At the time I arrived at the heliport, the helicopter had landed, the hijacker (subject of case entitled [redacted] CAA - Piracy; Kidnaping (NY 164-1014) had shot the pilot as he was running from the helicopter and the heliport attendant, who had been ordered into the helicopter by the sky-jacker, had attacked the sky-jacker and was attempting to wrest a second gun from him. At this point, the police officers on deck and I charged the helicopter, pulled the sky jacker out and subdued him.

The reason for mentioning this incident is merely to lay the foundation for what follows in this memorandum.

On 5/29/74, I suddenly began to feel tired and run down and had considerable chest congestion. I went to the office of Dr. Menard M. Gertler, who is Director of Cardiovascular Research at the New York University Medical Center, 400 East 34th Street, NYC, who has been a personal friend and personal physician for the past 11 years.

RE: JOHN F. MALONE
ASSISTANT DIRECTOR IN CHARGE. - NYO

Dr. GERTLER at the time was in Stockholm, Sweden, attending a Cardiovascular Symposium. I explained my problem to Dr. LEETMA, who is Assistant to Dr. GERTLER. He placed me on the electrocardiogram and no irregularities were noted. The next day he sent me for chest and throat X-Rays. The results were negative. Dr. LEETMA indicated that I did have what appeared to be a virus. However, to be sure he ordered me back on May 31st for another electrocardiogram. The results were still negative. He suggested I cancel all week-end appointments until Dr. GERTLER returned from Stockholm.

Dr. GERTLER called me on 6/5/74, and asked that I stop down to his office, at which time he stated that he has detected a slight irregularity in the last cardiogram and wanted me to take a treadmill electrocardiogram, at the conclusion of which he stated there is a definite irregularity that would have to be very closely watched. He ordered that all appointments be cancelled and I should obtain as much rest as possible although he permitted me to continue work.

After several more electrocardiograms, Dr. Gertler concluded that a small blood vessel leading to the heart had been damaged. He attributed the noted irregularity to running up the steps and to the exertion that followed. He stated that no man of my age could do something like that and not expect to have deleterious results. He stated that I could continue to do almost anything I had been doing short of running up steps.

The last electrocardiogram was on June 18th, at which time he said considerable improvement had been noted. He stated it will be necessary to continue in a semi-rest status for approximately one month.

Dr. GERTLER will be glad to furnish a report for Bureau records after I have finished with him.

I am scheduled to attend the FBI National Academy Associates Retraining Session at Cincinnati from 7/7-10/74. While Dr. Gertler would not say that I should not attend, he did say he would rather have me within a closer radius of New York for the next several weeks. I am therefore requesting that I be excused from attending the National Academy Retraining Session at Cincinnati and unless advised to the contrary, I have designated SAC 1, RALPH J. RAMPTON, of the NYO to attend in my place.

The foregoing is for the information of the Bureau.

By letter dated 6-18-74, which is attached, Assistant Director Malone described in some detail an incident which involved his running up two long flights of stairs to the top of the Pan Am Building in connection with a helicopter hijacking. Mr. Malone, together with police officers on top of the roof, charged the helicopter, pulled the hijacker out and subdued him. Several days later, Mr. Malone consulted his personal physician because of feeling tired, run down, and having chest congestion. After a series of tests his doctor concluded a small blood vessel leading to the heart had been damaged and attributed it to the running up steps and the exertion that followed. The doctor informed Mr. Malone that no man of his age could do something like that and not expect it to have deleterious results. The doctor told Mr. Malone he could continue to do almost anything short of running up steps.

Director Kelley wrote a note of encouragement to Mr. Malone on 6-25-74 urging him to follow his doctor's recommendations to the letter.

Upon learning of this situation, I felt that there were two matters that needed to be resolved and I called Mr. Malone this morning. In response to my query, he stated that he was feeling exceptionally well and his doctor was completely satisfied that he was in excellent condition consistent with his age. We discussed the matter of whether Mr. Malone should be considered as in limited duty status with restrictions on the type of activity he was to engage in. Mr. Malone said that his doctor felt he could engage in any activity his Bureau position might require except that he was not to place himself in a position where he would be running up flights of stairs and engaging in physical combat. Accordingly, Mr. Malone and I agreed that there was no necessity of placing a blanket restriction on his activities as would be indicated if we classified him as being in a limited duty status, but he was by all means to adhere to the one limitation imposed upon him by his doctor. He stated he would do this, that he would keep in close contact with his doctor and should there be any change in the evaluation he would immediately inform me.

Mr. Malone and I also discussed the fact that it appeared that the difficulty he had experienced was attributed by his doctor to running up the steps and to the exertion that followed. This was definitely a service connected situation, and I suggested to Mr. Malone that he submit the appropriate compensation forms CA1 and CA2 which are required under Bureau of Employees Compensation regulations for work-related injuries or disabilities. Mr. Malone stated that he had considered this but had not submitted the forms as he did not want anyone to feel he was making any type of claim for monetary compensation. I explained to him that the submission of the forms was a requirement and that it was absolutely necessary to protect his rights should any further difficulties arise which might be related to his strenuous activity on the occasion of his running up the stairs, etc. Mr. Malone stated he would fill out these forms and send them to me personally so they could be made a matter of record as required. He was most appreciative at having received Mr. Kelley's personally penned note and for what he regarded as my thoughtfulness in calling him and discussing the above matters with him.

has SAC Whittaker of Miami whose office covers Miami Beach whose Chief, Rocky Pomerance, is the incoming President. Also, we customarily have the SAC of the conference city attend. Tentative housing arrangements have been made for those officials coming from outside the Washington, D. C., area.

Inspector Cotter also coordinates plans for the conduct of a luncheon for National Academy graduate chiefs who are in attendance at the conference. This luncheon is traditionally held on Wednesday of the conference week and is scheduled for Wednesday, 9/25, at 12 noon. *rated 285*
We are certain that the assembled graduates who numbered 300 in San Antonio last year and who could well number 350 in Washington would appreciate hearing some remarks from the Director. We will recommend that the External Affairs Division prepare five to ten minutes of appropriate remarks for the Director as a featured part of the National Academy luncheon. This is a separate and distinct gathering of National Academy graduates from any other part of the session.

In view of the proximity of the Washington Hilton Hotel to Bureau headquarters and Quantico, we would also like to recommend that other Assistant Directors and Unit Chiefs from the Quantico instruction staff who may see an item of interest to their particular discipline be permitted to attend at the discretion of the Assistant Director in charge of the Training Division without a per diem commitment but with travel reimbursed if appropriate.

RECOMMENDATIONS:

1. That Assistant to the Director Jenkins, Assistant Directors Cleveland, Decker, Jamieson, Malone and Sullivan, SAC Whittaker, Inspectors Gallagher and Cotter, Section Chief Conger, and a representative of the Office of Legal Counsel be approved to attend the IACP conference at the Washington Hilton Hotel.

Edwin Enright, ASAC (Division III) since 9/25/73 and James O. Ingram, ASAC (Division III) since 5/12/74 (Robert Charles Denz, prior ASAC). Last inspection: 4/9 - 27/73.

This inspection was primarily a work load analysis of the NYO and the usual inspection surveys, with the exception of informant and audit surveys, were not conducted. Results of inspection by Divisions are set forth below.

DIVISION I (ADMINISTRATIVE)

Agent complement consists of 102 Agents (including SAC, ASAC and 8 supervisors). Administrative duties of this Division include Chief Clerk's Office (CCO), stenographic pool, training and liaison functions, press matters and night supervisory shifts. One section (squad) handles applicant matters including our applicant recruitment program.

Automobiles and Technical Equipment

Inspection of a representative number of vehicles (90) revealed no safety defects. Automobile utilization survey disclosed nonutilization average of 6.55 cars as compared with field average of 1.54. Use of personally-owned automobiles increased

since last inspection. Need to discourage use of personally-owned automobiles on official business stressed. Task Force study on use of automobiles in NYO currently in progress. Upon completion of study Assistant Director requested to submit assessment of automotive needs to Bureau. Automobile accidents increased from 44 (last inspection) to 48. 12 employees held responsible (6 last inspection). Safe and defensive driving emphasized. Technical equipment heavily utilized and properly maintained.

Funds

Confidential, Security Informant, Tax, [SOLO,] ^{(S)(u)} Double Agent, Flower, FBIRA, and Imprest Funds audited. Funds are accurately recorded and reported to FBIHQ. Specific instructions and recommendations made concerning their proper utilization. In certain instances, procedural changes to improve operations and internal control suggested.

Chief Clerk's Office and Steno Pool

The CCO is well organized and operating efficiently and productively. Pending and project work considerably above field averages but improvement noted compared to last inspection. Need for continued improvement stressed. Form errors slightly above field average and number of misfiled index cards above group and field averages. Files and exhibits properly maintained. Stenographic production increased from last inspection, but below group and field averages. Retypes below group and field averages. Typing errors attributed to Agents above group and field averages; steno-typists below both group and field averages. Stenographic delinquency 8 out of last 12 months attributed to shortage of experienced personnel. Production of stenos assigned Resident Agencies (RAs) above office, group, and field averages. New dictaphone system in shake-down phase should increase production and decrease error ratio.

Trends and Suggestions

Suggestions made to streamline indexing procedures by discontinuing preparation of nonessential index cards and utilization of certain monitoring equipment. Trends detected and corrected involved delay in handling bulky exhibits and failure to properly recharge serials.

Applicant Recruitment and Police Training

New York has recruited 28 Agent applicants and 9 clerical applicants since the last inspection. Need to continue applicant drive and improve minority employment stressed. Police Training Program indicates high degree of concern and

effort applied. Total number of schools (267) for calendar year 1973 showed slight increase over calendar year 1972 (263 schools). Lecture hours decreased slightly from 2, 659 to 2, 612.

Speech Program

Speech program, including radio and television, productive with wide variety of groups being reached and widespread geographical coverage being achieved. Suggestion made to have ASACs appear on television and radio programs and greater participation by Senior Resident Agents in speech program.

Security of Office

Request of NYO to deputize Special Clerks as United States Marshals for use as lobby guard force reviewed. Nonfeasibility of this proposal pointed out to NYO based on fact Director of U. S. Marshal's Service would not authorize deputizing Special Clerks and because of inherent legal problems. NYO to reconsider this matter in context of possible move to new space.

Overall Assessment

The primary purpose and responsibility of Division I is to administratively serve all Divisions of the NYO to insure efficient operations within the office so that the NYO can effectively carry out its responsibilities. It is functioning in an excellent manner.

DIVISION II (CRIMINAL)

Agent complement, Division II, 4/26/74 - 301 Agents (including SAC, ASAC and 14 supervisors). Increase from 215 Agents (last inspection) due essentially to transfer of 3 squads from another Division. Significant downward trend noted in supervisory case load on two RA desks. Recommendation made to eliminate these two desks (approved separately).

Bank Robbery violations up. Through first ten months 1974 Fiscal Year (FY) 422 violations compared to 264 violations for entire FY 1973.

Criminal Informant Program (CIP) rated good. As of 5/20/74, 374 CIs (413 last inspection), and 438 potential CIs (627 last inspection). These figures include CIs and PCIs handled by both Divisions II and V (Organized Crime). Accomplishments attributable to informants down in six of eight categories. Need to follow up on disseminated information stressed. Decentralization of CI coordination recently

instituted for better informant utilization and improved quality. NYO requested to evaluate, when appropriate, and advise Bureau of results.

RA space well organized, secure and neatly maintained - only minor correctable deficiencies noted. Space occupied by Kingston RA in excess of guidelines -- to be resolved with Administrative Division. RA case load analysis disclosed two RAs (Babylon and Staten Island) with marginally excessive manpower - instructed to follow closely. Excessive manpower noted in another RA (White Plains) corrected by transfer of Agent - no replacement.

Trends

Five trends noted in Division II which relate to delay in preparation of six-month reports for field use in deserter matters, improper preparation of outgoing letters, delay in opening new cases, failure to identify employee conducting investigation, and pending inactive matters in Selective Service Act violations being assigned rather than unassigned per manual instructions. Corrective action ordered.

Suggestions

Six suggestions provided to this Division pertain to leads in Fugitive Deserter matter; placing Flash Notice (FD-165) in Treatment Alternative to Street Crime cases (TASC); investigation for Bank Robbery matter; leads in Probation Violator matter; use of Special Clerk to check status of reactivated pending inactive Admiralty cases and implementation of tickler system, and leads to locate fugitives.

Substantive Errors

Nine substantive errors detected (handled separately) relating to delayed investigation and reporting in Selective Service matter, delayed investigation in Bank Fraud and Embezzlement matter, failure to submit six-month reports in Fugitive Deserter matter, delayed investigation and delayed reporting in Fugitive Deserter matter, delayed investigation in Fugitive Deserter matter, delayed and inadequate investigation in Probation Violator matter, delayed investigation in Interstate Transportation of Stolen Property matter; failure to confirm authorization of Assistant U. S. Attorney within five working days, and failure to conduct logical investigation in Ascertaining Financial Ability matter.

Overall Assessment

The supervision and investigation of matters in Division II are generally effective and achieving satisfactory results. Elimination of the two RA desks and the realignment of cases resulting therefrom should bring supervisory

Re: Inspection - New York Office

organization more in balance with the volume of cases now handled in the Division. The high incidence of bank robberies should be an area of great concern prompting intensified investigative activity.

DIVISION III (INTELLIGENCE)

Agent complement as of 4/26/74 - 405 Agents (which includes SAC, 2 ASACs, 19 supervisors and 383 Agents).

Division has investigative responsibility for all espionage, internal security and extremist matters.

(U) While informant coverage in the [Chinese] foreign intelligence field has ~~(S)~~ decreased since the last inspection, the general quality of the informant program has remained relatively stable. Security informants (SIs) decreased from 36 to 33; potential SIs decreased from 26 to 18. While overall coverage is considered adequate, there is a definite need for improvement as well as fuller participation on the part of Agents assigned.

Decrease in the number of SIs reporting on Communist Party, USA, down from 38 last inspection to 32, PSIs increased from 4 to 6. Coverage is very effective on national and state level, but definite need for member informants on club level emphasized. Numerical decrease in pro-Castro Cuban matters but quality of coverage remains high. Need for development of Cuban defector-in-place stressed. Development of Arab sources difficult and coverage established to date (3 SIs, 8 PSIs) highlights need for development of additional sources. Quality sources also needed to provide advance information on potential disruptive demonstrations and activities by Jewish Defense League. Definite need for development of additional informants pointed out in connection with Attica Brigade, Revolutionary Union, National Caucus of Labor Committees and Weatherman and improving existing coverage in other subversive groups emphasized. Agent undercover operations analyzed - continuation justified.

(U) [Extremely valuable defector-in-place being handled most competently in Soviet field, but overall quality, as well as quantity of Soviet and satellite informant coverage has decreased since last inspection.] SIs down from 140 to 133, [satellite] SIs remained ~~(S)~~ at same numerical strength - 63. Need for all Agents assigned to these areas to fully participate and contribute to informant program stressed. Need for additional emphasis on [] Program pointed out. Trotskyist informant coverage generally effective but coverage should be improved in Workers League, Young Socialist and other related Trotskyist groups.

Re: Inspection - New York Office

Extremist situation relatively calm at present. Effective coverage established on Cleaver Faction of Black Panther Party (BPP) but additional informant coverage of Newton Faction, BPP, needed. Improved coverage in Nation of Islam and other extremist organizations also stressed.

Trends

(U) Five undesirable trends detected concerned improper opening of DESECO cases, failure to afford appropriate security in communications regarding informants' identities, failure to secure Bureau authority for interviews with student security subjects, [failure to evaluate and/or submit progress letters on Soviet Bloc officials on a timely basis] and failure to record that SAC authority had been obtained for interviews with extremist subjects. Corrective action ordered. (S)

Suggestions

(S) Ten specific suggestions made toward improving administrative procedures as well as pointing out investigative avenues which should be pursued in individual Division III cases [involved reevaluation of inactive security informant to assess potential for utilization against Soviets; development of potential sources who could be directed against suspected Soviet Intelligence Officer] (S)
(U) [redacted] investigative steps to be pursued in developing possible criminal violations on part of Weatherman subject and/or exploit subject's potential as a source; enlarging and improving indices searching procedures in Nationalistic Tendencies cases; (S)
(S) [redacted] improving administrative and security procedures concerning certain technical surveillance matters; broadening investigative approach in two separate Arab investigations; and initiation of investigative program to determine extent and specific fields of [redacted] (S)

Substantive Errors

Six substantive errors detected (handled separately) involved failure to report pertinent information in letterhead memorandum; failure to properly debrief security informant and disseminate pertinent data to local authorities; failure to secure Bureau authorization to operate PSI; two instances of failure to comply with Inspector's instructions to close unproductive confidential source cases during last inspection and failure to disseminate pertinent information to local and Federal authorities in extremist cases.

~~SECRET~~

Memorandum to Mr. Callahan
Re: Inspection - New York Office

~~SECRET~~

Overall Assessment

Division III is generally doing a creditable job in fulfilling its responsibilities; however, the foregoing points out numerous areas where informant coverage must be improved. The significant number of substantive errors and trend memoranda also indicate a need for tightening administrative and supervisory procedures which should receive priority attention.

DIVISION V (ORGANIZED CRIME)

Agent complement is 178, including SAC. Of these 171 are assigned investigative duties and report to a coordinating supervisor or one of five field supervisors. Although the designated complement for this Division is 183, each section indicated their present manpower is adequate and the Inspector agrees. The present supervisory structure and Agent complement are justified.

At the time of the last inspection, this Division was comprised of seven sections and had 191 Agents assigned. In July, 1973, a section handling Theft from Interstate Shipment matters was transferred to the Criminal Division. Selective Service Matters were added to the Deserter Section of this Division in August, 1973. This section, handling both Deserter and Selective Service matters, was transferred in January, 1974, to the Criminal Division. The reduction in case load in this Division from 2552 as of last inspection to 1567 as of 3/31/74, is due in large part to the transfer of the two sections and their cases.

The NYO proposed to form a new section in the Organized Crime Division, responsible for the investigative activities of two La Cosa Nostra (LCN) "families," which, along with other matters, are now handled by an existing section. Inspector recommended that rather than create a new section one of the "families" and sufficient personnel from within the Division be reassigned to Section 51 for a six-month period to determine the effectiveness of this arrangement. SAC, Division V, concurred with this recommendation.

The Metropolitan New York City area continues to be the base of operations for five of the Nation's most notorious LCN "families." There are also present non-LCN organized crime figures, both black and white, in the New York Division. The investigative effort has been geared to develop quality cases resulting in obtaining valuable intelligence information and prosecution of the principal persons comprising organized crime in the territory. The criminal activities of LCN and other organized crime groups consist primarily of illegal gambling, loan sharking, labor racketeering, narcotics sale and distribution and fencing of stolen property.

Memorandum to Mr. Callahan
Re: Inspection - New York Office

The NYO Top-Echelon Criminal Informant Program (TECIP) is rated excellent. While a decrease in the number of TEs being operated occurred since the last inspection (from 84 to 81), a significant compensating increase occurred in the number of targets under development from 275 to 311 during the same period. TECIP was largely responsible for scoring 189 convictions since last inspection and the seizure of cash, securities and other forms of property valued at \$10,211,782.00.

Currently six LCN member informants operating and need exists to increase emphasis in development of additional LCN member informants, particularly in the "Evola" and "Luchese" LCN "families."

Suggestions

A suggestion was made in an effort to enhance the basic administration of the TECIP files relating to the timely and uniform development of background information concerning targets under development.

Trends

A Trend Memorandum called attention to the failure to utilize a non-Symbol Number Informant page on the Administrative Pages of investigative reports where required. Corrective action ordered.

Substantive Errors

Three substantive errors were detected (handled separately), two of which related to closing cases prior to insuring proper indexing. Another error was found in the failure to submit a Flash Notice to FBIHQ in a Criminal Informant case.

Overall Assessment

Division V is doing demonstrably well in developing quality intelligence information and good quality prosecutable cases in organized crime matters with 203 subjects awaiting prosecutive action.

b6 Two cases exemplifying the work of this Division are: the [] investigation involved extensive illegal gambling activity in violation of the Illegal Gambling Business Statute. As many as 50 Special Agents participated in this investigation,

[] It is anticipated that approximately 75 organized crime figures will be indicted as a result of this major investigation. The James Vincent Napoli investigation represents a successful investigation of one of the largest illegal

gambling business operations in the United States. During the investigation, extensive physical and photographic surveillances were conducted. Three microphones and one technical surveillance were also employed pursuant to Title III authority. In addition, approximately 100 search warrants were executed. It is anticipated that as a result of this investigation principal subject James Napoli and 36 other organized crime subjects, including six major LCN members, will be indicted.

STATISTICAL ACCOMPLISHMENTS

For FY 1974, NYO up (2%) in convictions, (118%) fines, savings and recoveries, and (5%) fugitives apprehended.

ADEQUACY OF CLERICAL PERSONNEL

ADIC and Inspector agree that present authorized clerical complement of 540 is adequate but not excessive. NYO instructed to make every effort to promptly fill 68 clerical vacancies (22 stenographers, 46 clerks) to bring clerical force to full authorized strength.

Agent adequacy in NYO has been subject of separate memorandum.

PERSONAL ATTENTION

INSPECTION - NEW YORK OFFICE

I have reviewed and approved the enclosed summary of the results of the recent inspection of the New York Office. As you are aware, the recent inspection of your office involved a comprehensive overview of manpower needs, particularly in the counterintelligence field. This precluded the usual investigative surveys and other inspection items generally undertaken in a normal field office inspection. Hence, the ratings in the five regular inspection categories have been waived for this inspection.

You and your Special Agents in Charge should carefully review the inspection findings and within thirty days of the receipt of this letter advise the Bureau of the corrective action you have taken.

Mr. John F. Malone
Federal Bureau of Investigation
New York, New York

Dear John:

In response to your call about my speech on November 14, 1974, I cannot at this point give any answer to your question about the night of November 13th. If Ruby is with me, I plan to bring her to New York, and if she is with me, I would not leave her to attend a function alone. I doubt very much also if it would be possible for me to take her to any dinner where there might be a number of people gathering. She is getting along very well and, therefore, I do not want to have any difficulty thrown in her path such as a situation where she might become tired.

On the other hand, I feel probably that if I come to New York alone, I could make it on the night of November 13. This might present some difficulty, however, because I am scheduled to be in Tampa November 11th, which would make my schedule pretty full.

In essence, I must say that I will have to wait until about November 1st before I can give you a definite answer. If this is too late and would place an undue burden on those scheduling the ex-Agents meeting, I think they should go ahead and schedule it without my participation.

Sincerely,

15/ *[Signature]*

JOHN F. MALONE

August 7, 1974

Dear Clarence,

Thank you for your letter of August 2nd. I fully appreciate your problem in regard to accepting the invitation. I feel that it was thoughtless of me to put this burden upon you with all that you have on your mind.

I called Henry Anderson, who extended the invitation originally, and explained your position to him and suggested that at some time in the future, the ex-FBI Agents plan a nice dinner for you when the terrific pressures presently on your shoulders have lessened. He was perfectly understanding and most agreeable.

So, if you happen to come in on the thirteenth, why don't you just plan on having a free evening where you can relax and enjoy yourself a little. If Ruby is with you, other plans can be made accordingly.

With warm, personal regards and many thanks for your thoughtful consideration, AUG 21 1974

Sincerely,

John (Malone)
